

1. In the Main Menu, you should go to the “**SETTINGS**” icon/shortcut:

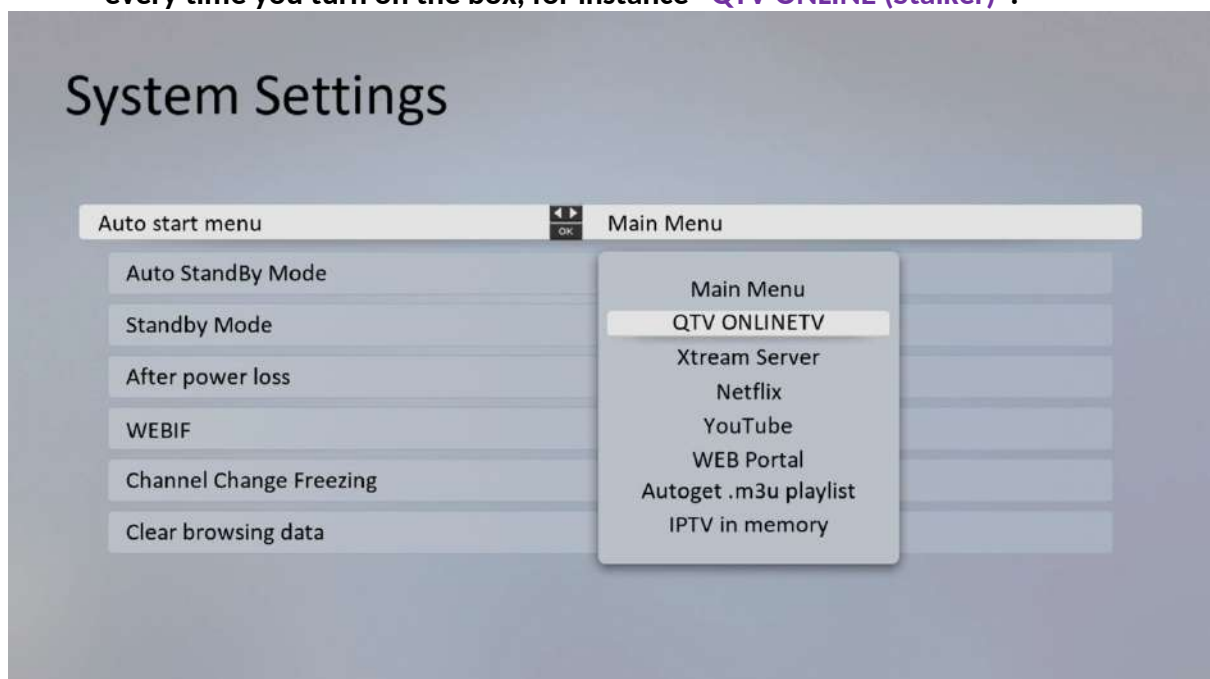

2. You should go to the “**System Settings**” menu:

3. You should go on the “Auto start menu” function, and then press “OK” button of your remote control:

4. It will pop up this window, and then you are able to select the app you want start every time you turn on the box, for instance “QTV ONLINE (Stalker)”:

5. Then the app selected will save in the “Auto start menu”, it means that the next time you will turn on the box it will start with that app:
